Created for seamless integration with the TEDS Learning Management System, **LEARNING COMPOSER™** can be utilized in every learning environment from e-Learning to instructor-led training to blended learning. Deliver engaging, interactive courses right where you need them and track learner progress.

The many features of **LEARNING COMPOSER™** include:

- User-friendly wizards enabling a Subject Matter Expert to quickly build highly interactive web-based courses and Sharable Content Objects (SCOs)
- Repository access for Reusable Learning Objects (including text, graphics, audio and animation), as well as for courses and objects outside the TEDS data repository
- Customizable assessment tools
- Collaborative authoring capabilities for embedding existing materials (Flash, HTML, graphic files, sound files)
- Course creation and editing via multiple course, SCO and page templates for easy reuse
- Branching within SCOs for remediation
- A variety of publishing options: web-based training, CD-ROM and MS Word format which plays a course seamlessly with/without an LMS
- A variety of test question types: multiple choice, check page, matching, fill in the blank, and practice interactive simulations using TEDS SimCorder™ and other simulation tools.
- Automatic notifications when used with the TEDS LMS
- Reusable course glossaries
- SCORM 1.2 conformance and support for Section 508 compliance
